About Hidden Trails

Hidden Trails is owned and operated by nature enthusiasts who love horses and adventure activities. We have been involved with riding and other outdoor vacations for over 20 years.

With our partners Voyage du Cheval (France), Pegasus (Germany) as well as Equitour (Switzerland and France) we have collected the best riding destinations all over the world in some hidden places we would like to share with you.

These rides are about galloping on endless beaches, forging rivers, cantering through forests, trotting along age-old trails, gazing at beautiful vistas and encountering foreign cultures. But most of all, these trips are about getting away from the cycle of too much work and never enough free time.

Escape from the rituals, which long ago froze our nights and days into little more than routine and away from the worries of our new tense times. It is so satisfying when we take the plunge of adventure - it's unfortunate that we invent so many reasons to put aside living our dreams of adventure. It is sometimes a tangled web that we weave through life. Some of the threads reveal a work-a-day world of commitments, duties and obligations. Other threads are of a quiet fabric of hope, responsibility and refreshment.

On our adventures you see the real country, its back country and meet the locals. The love for horses has no boundaries but possesses a common language we all speak and understand. The majority of the overseas rides are from inn to inn, some from castle to castle and a few are camping rides.

You will experience new countries and their customs and make new friends. The Hidden Trails trips are the best you can find.

They have been tested by our staff or associates and received our stamp of approval. If you are considering a special riding vacation anywhere in the world, call us first and let our experienced consultants match the perfect trip with your dream.

We will listen to you and give you objective advice to help you choose the best destination and adventure.

Your vacation is the most precious time of the year and we are committed to making it the most memorable time of your life. Wherever you go, have a great time and bring back some peace of mind.

Thank you for your continued support.

Legend 4-day Cruise

Introduction

Galapagos, Ecuador
Galapagos Legend 100 passengers

This magnificent vessel, with a capacity for 100 guests, has the charm of The Enchanted Islands; it is still small enough for a more intimate experience with friends and family. With her three different decks, the Galapagos Legend offers a great variety of comfortable and spacious social areas without losing its sense of intimacy. Its fantastic open decks allow you to admire the islands' flora and fauna, enjoy a BBQ at night, or take some sun at the pool and bar areas.

Take advantage of its spacious inside auditorium for important conferences. Our philosophy is based on an environment without any formalisms or strict etiquette.

The facilities focus on both mind and body and provide you with those special places you need to exercise, rest or relax in a peaceful, harmonious setting.

The exceptional cuisine is comparable to that of the best restaurants in the world and merit special mention, ranging from the impressive breakfast buffet with freshly baked bread to the extraordinary menus drawn up by professional chefs for lunch and dinner. Visitors will enjoy local gastronomy, a wide variety of exotic fruits and the world's best flavors, special menus for children, delicious vegetarian dishes or meals for those who have special diets. Once a week, there will be a barbecue at sea so you can sail, dine and enjoy islands landscapes.

Enjoy a charming casual marine décor, with accommodations in cabins with a view of the sea, delicious meals, 2 daily excursions to a habitat unlike any other, full of wildlife that have no fear of man. See prehistoric iguanas, giant tortoises, exotic birds and plants and beautiful landscape of volcanoes, lava cones and magma flows. Snorkel or dive along untouched beaches with a unique underwater world. Tours and lectures provided by licensed nature guides in various languages.

Relax

To relax in the sun or even bathe in the Jacuzzi, head to the Earth Deck, where the natural wonders of the Galapagos can be enjoyed from a whole different perspective, whether by the handrail of their decks, the comfort of a sun-lounger or from the balcony at the bow. There's a space for everyone on these deceptively large yachts. Take a peak into our boutique for your shopping needs. On our new Sky Deck, view the dolphins playing in the water, swim in our pool, watch the wave from our panorama lounge inside with a drink from the Fisherman bar.

Enjoy

Enjoy the various activities on board. Enjoy our high-class gym. On board our ship, nights are magical, full of bright stars and countless constellations.

Learn

On visits to the islands, they will accompany you every step of the way, taking time to explain the highlights as you wonder through this new and magical land. Every evening, these same guides will give you a lecture illustrated with multimedia presentation, imparting and sharing with you their knowledge of geology, history, evolution, flora and fauna of the islands. Also enjoy our library and for the little ones kid's corner where they can learn all about the Galapagos!

We reserve the right to refuse a passenger if someone failed to inform of any physical disability, or who in the opinion of the company, constitutes a danger to themselves, other guest, members of the crew, or the smooth operation of the vessel.

Dry Landings and Wet Landings

On a dry landing, passengers step directly from a dinghy to rocks or onto a dock. We recommend: walking shoes, sunscreen, hat, water, insect repellent and a light jacket.

Wet Landing means that the dinghy edges up onto a beach, where you step into knee-deep water assisted by crew members and guides. We hardly get a seasick passenger on board. However, we have seasick medication on board all our ships, but if you are particularly sensitive you can bring your own medication.

Itinerary

Sample Itinerary: Central option - subject to changes

Day 1 (Monday): Arrival & Santa Cruz Island Visit

Departure from Quito or Guayaquil to Baltra (2 ½ hours flight). Passengers are picked up at the airport by our naturalist guides and taken on a ten minute bus drive to the pier to board the Galapagos Legend.

This afternoon, departing on Santa Cruz Island to the mountains of Galapagos. It is possible to advise different

This afternoon, dry landing on Santa Cruz island. In the mountains of Galapagos, it is possible to admire different kinds of birds, such as tree and ground finches, vermilion flycatchers, paint-billed crakes, yellow warblers, and cattle egrets (usually standing on the tortoises' shell). The journey to the reserve offers great opportunities to see the contrasts that the island offers in reference to the variety of ecosystems. The road goes from the coast through the agricultural zone and straight up to the dense humid forests. Often, Galapagos Giant Tortoises are also seen on the way, wandering through pastures in the paddocks. This spot is a bird watchers' haven since almost every land bird present on the island lives or migrates here.

Activity Difficulty: easy (flat & muddy sometimes - seasonal conditions)

Activity Duration: 45-minute drive / 1 ½-hour walk

Day 2 (Tuesday): Genovesa Island

When visiting Prince Philip's Steps (also known as 'El Barranco'), be marveled at the variety of sea life that uses the crevices of the lava cliffs for shelter. Red-billed Tropicbirds fly overhead, switching between their nests and the bay, and a small colony of fur seals may be found near the landing site. You will be dropped off at a steep stairway that begins on rocks at the foot of a path that leads through a seabird colony full of Nazca and Red-footed Boobies. At the plateau, the trail continues inland allowing you to see more nesting booby colonies in the thin Palo Santo forest. Near the end of the trail, over a rocky lava plain, Wedge-rumped Storm-Petrels can be observed flying in all directions. If you are lucky, you may catch a glimpse of a Short-eared Owl.

Activity Difficulty: Moderate (rocky terrain - lava)

Activity Duration: 45-minute walk

In the afternoon, disembark onto a small sand and coral beach: Darwin Bay. A short trail heads west along a tidal lagoon and then up a rocky hill that leads to a point overlooking the cliffs and Darwin Bay. Along the trail near the tidal lagoon, visitors will see pairs of Swallow-tailed Gulls, Lava Gulls, Yellow-crowned and Lava Herons. The trail continues through Palo Santo trees, Opuntia cacti, and Saltbushes inhabited by Great Frigate birds and Red-footed Boobies. This is one of the few places in the islands where visitors are guaranteed to see Red-footed Boobies. It is estimated that more than 200,000 Red-footed Boobies live in the trees and bushes of Genovesa.

Activity Difficulty: Moderate (Sand & Lava)

Activity Duration: approx. 2 ½-hour walk

Day 3 (Wednesday): Dragon Hill & Santa Fe Island

After breakfast, dry landing at Dragon Hill (Santa Cruz Island). Walk by a brackish lagoon to see flamingos. The trail leads across typical dry zone vegetation. Keeping up until Dragon Hill, see an important nesting ground for endemic land iguanas, offering lovely views of the anchored boats and neighboring islands. The forest is home to mockingbirds, Darwin's finches, yellow warblers, and Galapagos doves.

Activity Difficulty: intermediate (rocky terrain)

Activity Duration: 2-hour walk

Later that day, wet landing on Santa Fe island. This island shows white sand beaches surrounded by sea lion colonies; through the island path, an endemic cactus forest is passed, home the Santa Fe land iguanas (the largest in the islands). This island is the habitat for a number of species, including the Galapagos hawk, Galapagos snakes, rice rats (one of the few endemic Galapagos rodents), a variety of finches and one of the four mockingbird species of the archipelago.

Activity Difficulty: intermediate (rocky terrain)

Activity Duration: 1 ½-hour walk / 1-hour deep-water snorkeling

Day 4 (Thursday): Departure

For our last expedition, wet landing at Bachas Beach. On the north side of Santa Cruz; behind the beach lies two small flamingo ponds where iguanas sunbathe, see coastal birds, Darwin finches, mockingbirds, and gulls, as well as interesting native vegetation like red and black mangrove, salt bushes. This beach is one of the main sea turtles nesting sites in the Galapagos. A turtle can lay eggs 3 or 4 times per season with an average of 70 eggs each time. At this paradisiacal site, we will also find the remains of barges that sank a long time ago, when the United States Navy operated a base during World War II on Baltra Island. Local people modified the word barges to "Bachas".

Activity Difficulty: easy (sandy terrain)

Activity Duration: 1-hour walk / 1-hour snorkeling/ beach time

After the visit, passengers will be transferred to the airport for their return flight to Guayaquil or Quito.

Sample Itinerary: East option - subject to changes

Day 1 (Monday): Arrival & North Seymour Island Visit

Departure from Quito or Guayaquil to Baltra (2 ½ hours flight). Passengers are picked up at the airport by our naturalist guides and taken on a ten minute bus drive to the pier to board the Galapagos Legend.

This afternoon, visit of North Seymour Island. This flat, uplifted, island is an important spot to see both magnificent and great frigatebird males courting the females by clicking, bill-clapping, shuddering and flapping their wings, all while showing off their grossly inflated, bright red, gular pouch. We will also likely see courting blue-footed boobies displaying their unique feet while dancing to a prospective mate. Sea lions, swallow-tailed gulls, crashing surf and distant views of the Daphne Islands top off a great visit.

Difficulty level: intermediate (rocky terrain)

Duration: 2-hour walk, 30 minutes snorkeling

Day 2 (Tuesday): Bartolome & Santiago Island

This morning, we explore Bartolome island. Considered the most iconic landscape of the entire archipelago the view from the top of Bartolome Island, overlooking the famous Pinnacle Rock and the austere Santiago Island beyond, is well worth the climb up the wooden boardwalk. This volcanic scene has often been likened to a lunar landscape. Our subsequent snorkel here might put us face to face with Galapagos penguins, white-tipped reef sharks and playful sea lions.

Difficulty level: intermediate (trail made of 372 steps)

Duration: 1 ½-hour walk / 1-hour snorkeling

After lunch, wet landing in Sullivan Bay. This site is located at the southeastern portion of Santiago island and is of important geologic interest. It features extensive relative Young pa-hoe-hoe lava flows formed during the last quarter of the 19th century. In the middle of the lava flow, older reddish-yellow-colored tuff cones appear. Mollugo plants with their yellow-to-orange whorled leaves usually grow out of the fissures. Walking on the solidified lava gives the impression of being on another planet. Tree molds are found, indicating that in that position, large size plants grew in small crevices, until the lava flow of past eruptions burnt down the flora of the island.

Activity Difficulty: difficult (flat volcanic lava terrain)

Activity Duration: 1.5 hour walk / 1 hour snorkeling

Day 3 (Wednesday): San Cristobal Island

Our exploration of San Cristobal island starts with a wet landing at Pitt Point, followed by a high intensity hike. The trail includes an olive beach of 90 meters long and a path that climbs to the top of a volcanic tuff, through several magnificent viewpoints. This is probably the only site where the three booby species of the Galapagos can be seen together, as well as two species of frigatebirds and a sea lion colony; it is also excellent for dinghy rides and snorkeling, where a good range of sea birds can be observed.

snorkeling, where a good range of sea birds can be observed.

Activity Difficulty: difficult (rocky terrain)

Activity Duration: 2h30 walk/ 40-minutes snorkeling or kayaking

In the afternoon, wet landing at Cerro Brujo, an eroding tuff cone that at several locations is composed of AA lava formations, and a beautiful white sand beach, great for snorkeling and sunbathing. We visit a lagoon where migratory bird species can be seen: Black-necked Stilts, Ruddy Turnstones, Whimbrels, other sandpiper species and White-cheeked Pintails. Cerro Brujo offers beautiful views of Kicker Rock, the southern part of San Cristobal and the adjacent coast.

Activity Difficulty: easy (sandy terrain)

Activity Duration: 1-hour walk / 1-hour snorkeling

Day 4 (Thursday): Departure

For our last morning expedition, we visit the moist Highlands of San Cristobal island. We will visit the giant tortoise breeding center La Galapaguera, to witness the most iconic creature of the archipelago in its various life stages. The tortoises wander in a semi-natural habitat which lends itself to good photographic opportunities. the aim of the reserve is to help restore populations of the threatened San Cristobal tortoises back into the wild. In town, there are shops to purchase local handicrafts and souvenirs.

Activity Difficulty: intermediate (sandy terrain)

Activity Duration: 40-minute bus drive to the Reserve / 1-hour visit

After the visit you will go straight to the airport for return flight to Guayaquil or Quito.
